# Company Introduction & Overview

Frey Construction & Dirt Service is a privately owned company based out of Eunice, LA that specializes in all types of residential, and commercial preparation projects.

Frey Construction & Dirt Service was founded by a small group of people with the mindset of providing the best quality & assurance possible to meet the customer's needs on all levels.

We at Frey Construction & Dirt Service believe that each customer and project has different needs; so we tailor our services to provide the most beneficial assistance possible to ensure a project's success. We have the staff, knowledge, and resources to accomplish these tasks. Our goal is to deliver unparalleled quality on time and on budget, because we realize that each project we accomplish is a reflection of not only our company, but our clients as well. In every contract, we want to be involved each step of the way to guarantee complete customer satisfaction in all areas of the project.

Frey Construction & Dirt Service is owned and operated in Eunice, LA. Since our company began in 2010, we've treated every customer like they were a part of our family. Other companies may offer similar services, but ours come with a personal touch.

Our company has grown rapidly. We are now staffed and equipped to meet the ongoing demands with capability to travel where our services are needed. We not only have projects in our home state of Louisiana; we have completed projects in Mississippi, Alabama, Arkansas, Texas and as far as North Dakota. There is no project too big or too small that Frey Construction & Dirt Service can not complete.

# Commercial Construction

At Frey Construction & Dirt Service, we work with dedicated professionals, employees, trades and individuals that share a common goal of providing the best quality product and service. We also work diligently to learn our clients' needs so that we not only meet their expectations, but exceed them. The outcome for our clients is a project that is completed on time, within budget and with exceptional quality.

We are ready to meet with you to discuss any type of commercial construction project. Frey Construction & Dirt Service can assist owners with numerous smaller tasks as well as larger construction projects.

## CONSTRUCTION MANAGEMENT

Under the Construction Management delivery system, Frey Construction & Dirt Service provides experienced leadership throughout the construction process including design review, scheduling, cost control, value engineering, constructability, bidding and project management.

Frey Construction & Dirt Service's approach to construction management is to effectively utilize the company's diverse experience and knowledge of current conditions and costs, while providing professional project management systems and controls enabling optimum efficiency throughout the construction process.

## DESIGN BUILD

At Frey Construction & Dirt Service, our commitment to quality during the construction process ensures a successful outcome for clients. Design-Build is a comprehensive project delivery method that includes planning, design and construction. This method adds significant cost and time savings for owners by providing the contractor as a single point of contact who is contractually responsible for delivering aspects of the project's design, engineering and construction.

## ADVANTAGES OF DESIGN-BUILD

- Coordinated team approach
- Enhanced communication between client and construction team
- Increased accountability of construction team
- Single point of responsibility for quality, cost and schedule adherence
- Early awareness of project cost
- Efficiencies in time and productivity
- Accelerated occupation and facility operations
- Improved risk management

Contact Frey Construction & Dirt Service to learn more about how we can help you achieve your construction goals.

# Waste & Storage Containers

Frey Construction & Dirt Service got into the waste and storage container business for a number of reasons. There are many projects that waste containers are used for that many may not realize. You may be moving and need a container to throw old items; you may be a residential building contractor that needs a container to store supplies; you may be a commercial contractor needing a container for a commercial site demo; maybe you are an energy company doing some fabrication in one of your plants and need a place to store all of your metals cutoffs until you can send it to the recycling facility.

Waste and storage containers can be used for a variety of different applications. Frey has numerous container trucks and trailers to provide you with superior service and on time delivery when needed.

## FREY CONTRUCTION SUPPLIES

- 15 yard containers
- 30 yard containers
- Scrap containers
- Concrete containers
- Hazard waste disposal

# Aggregate & Soil Hauling

At Frey Construction & Dirt Service, our trucking division's goal is to provide the highest quality of transportation hauling services available. Our tandem and triaxel dump trucks and end dump trailers are equipped to offer a variety of services to our customers such as highway projects, energy plant projects and railroad projects. Frey Construction & Dirt Service also offers a truck leasing program for all of your trucking needs.

Frey Construction & Dirt Service is licensed to haul and dispose of hazardous material, including asbestos products and can haul any material needed for a specific job. Our company is apportioned to haul in many states across the U.S., as well as local and out of town or out of state hauling as needed.

## THE DIFFERENT WAYS FREY CAN WORK

- Hourly
- By the load
- By the ton
- By the cubic yard

## TRUCKS/TRAILERS THAT FREY CAN PROVIDE

- Tandem dump trucks
- Triaxel dump trucks
- Lowboy for equipment hauling
- Flat beds
- Drop decks
- End dumps

# Safety & Training

Frey Construction has its own safety program and are able to provide services on projects that do require health and safety policies to be in place for their employees, customers, vendors, and general public. Frey Construction exceeds the standard requirements to ensure that our projects are completed with uncompromised attention to safety and the well being of all people involved. We are also in compliance with OSHA's standards and policies and have accounts set up with Veriforce, ISNetworld, Safety Services and NCMS.

## FREY CONSTRUCTION SUPPLIES

- New employee orientation and training
- Drug & alcohol policy (Testing for: New hire/random monthly)
- First aid & CPR training
- Drug & alcohol awareness training
- OSHA construction safety training
- Veriforce certification
- Daily toolbox safety meetings
- Daily equipment & truck inspections
- Daily JSA and/or TSA
- Monthly company safety meetings

## FREY CONSTRUCTION'S SAFETY & HEALTH POLICY STATEMENT

Frey Construction & Dirt Service's objective is a safety and health program that will reduce the number of injuries and illnesses to an absolute minimum, not merely in keeping with, but surpassing, the best experience of operations similar to ours. Our goal is zero accidents and injuries.
